ABOUT ME

I am currently completing my BSc Computer Science degree at the University of Pretoria, where I am leading our COS 301 Capstone team and contributing to both backend and frontend development. With a foundation in computer science, I am now looking to extend my abilities in design, user experience and user research.

EXPERIENCE

COS 132 and COS 221 Tutor   10 Feb 2025 – 30 June 2025
University of Pretoria

During this semester I have gained more experience in how to work in an environment where I can help others, as well as working with others to helps student achieve their goals. I have gained experience in marking demonstrations of projects.

COS110 Tutor   22 July 2024 – 01 December 2024

University of Pretoria

During the semester I learned how to communicate clearly with students and how to help them understand a concept. I have gained experience with tutoring and marking class tests.

JCP: Computer Training at Mamelodi Campus   February 2024 – October 2024
University of Pretoria

During my holiday (8 July 2024 - 12 July 2024), my JCP team and I had to present a computer training course to community members at Mamelodi Campus. During this week I have gained experience in teaching people new things and having patience. I also learned how to approach matters in different ways to make a concept more understandable for people who struggle to grasp a concept.
